

Nyamira Municipality Citizen Fora Calendar 2024/2025

To promote participatory governance, Nyamira Municipality has scheduled four Citizen Fora, one per quarter, for the financial year 2024/2025. These fora will focus on key themes, including climate change mainstreaming, resilience, sustainable projects, waste management, and circular economy principles.

Date	Theme	Topic
August 15, 2024	Climate Change Mainstreaming and Resilience	To engage residents on integrating climate change mitigation and adaptation strategies into municipal projects. Key Topics: Urban green spaces and renewable energy. Community-driven climate resilience projects. Disaster preparedness and flood risk mitigation.
November 20, 2024	Sustainable Urban Development and Waste Management	Objective: To discuss sustainable urban infrastructure and waste management strategies for a clean and healthy environment. Key Topics: Progress on solid waste management systems, including the circular economy model. Updates on urban infrastructure projects, such as roads and drainage systems. Public awareness on reducing, reusing, and recycling waste.
February 18, 2025	Economic Empowerment through Sustainable Projects	Objective: To explore how sustainable projects can spur economic growth and improve livelihoods within the municipality. Key Topics: Promotion of value-added food production and processing. Supporting local businesses through improved market infrastructure. Enhancing revenue generation through environmentally sustainable initiatives
May 14, 2025	Annual Progress Review and Planning for FY 2025/2026	Objective: To review achievements in climate resilience, waste management, and urban sustainability while gathering input for the next financial year. Key Topics: Progress updates on fire station construction, road upgrades, and other municipal projects. Citizen feedback on implemented strategies. Setting priorities for FY 2025/2026 based on lessons learned.
