## **FOREWORD**

The County Government of Nyamira continues to implement comprehensive programmes to uplift the welfare of the people and ensure sustainable social, economic, environmental and political development. This County Annual Development Plan (CADP) for 2025/2026 marks the Second year of the implementation of the Third County Integrated Development Plan (CIDP), 2023-2027. The County Government of Nyamira will continue to implement comprehensive programmes targeting the “BETA” agenda of the County. The CADP therefore will focus on programmes that will help meet the aspirations of the people of Nyamira County which is realization of shared development and prosperity.

This County Annual Development Plan is developed pursuant to section 126 of the Public Finance Management Act (PFMA), 2012. The proposed priority programmes contained in the 2025/2026 Annual Development Plan intend to meet strategic sector objectives as stated in the Sector Development plans for 2023-2033. These Sector Plans are intergrated into the Nyamira CIDP 2023-2027, the Fourth Medium Term Plan (2023-2027) and the Kenya Vision 2030. The implementation of the CADP is expected to stimulate economic growth and hence contribute to sustainable socio- economic development.

The aim of the 2025/2026 ADP is to set the pace for faster socio-economic development and sustainable growth through efficient and effective management of public resources. To achieve the envisaged performance, the CGN will step-up investment in the socio-economic sectors and physical infrastructure. Reforms in governance, public financial management, public service and business regulation complement this ADP. Once implemented, this will enhance the County’s competitiveness to attract both domestic and foreign investors.

## **ACKNOWLEDGEMENT**

The Nyamira County Annual Development Plan (CADP) 2025/2026 outlines the broad strategic fiscal framework, together with a summary of county's spending plans, as a basis of 2025/2026 budget. The overriding policy thrust of the ADP is to sustain socio-economic growth of Nyamira County. The main focus is on infrastructural development and facilitating agricultural sector to promote productivity and build the resilience necessary for employment creation, food security and poverty reduction. Amongst the key priorities of the ADP is implementation of affordable health care system, infrastructure improvement, completion of flagship projects while at the same time ensuring ward based projects impact people's lives positively.

The preparation of the 2025/2026 ADP was achieved through consultation and co-operation between Department of Finance, ICT and Economic Planning and all other County Departments. Much of the information in this report was obtained from the County Government Departments. I therefore wish to acknowledge the valuable contribution of the Chief Officers and directors with the valuable guidance of the respective County Executive Committee Members.

We have also received inputs from the public during public participation that provided useful feedback and we wish to thank members of the community for their contribution as well as all those who participated in one way or the other. A core team in the County Economic Planning and budgeting Directorate provided secretariat services and coordinated the production of this Annual Development Plan. We are grateful for inputs from each and every one of the team members

## **CHAPTER ONE**

### **THE COUNTY GENERAL INFORMATION**

#### **1.0 INTRODUCTION:**

This chapter gives a brief overview of the county. It explains the background information, the rationale for the preparation of the Annual Development Plan, The processes involved in the preparation of the Annual Development Plan and the linkages of the County Annual Development plan with other plans.

#### **1.1 BACKGROUND INFORMATION:**

##### **1.1.1 County Overview**

Situated in Western part of Kenya, Nyamira County has historically evolved from different and previous administrative units, creations and boundaries since independence. It is indeed formed part of one of the division of the larger Kisii district way back in 1970s. Nyamira as a division became a full district in 1987 carved out of the Kisii district; this had ever existed with various administrative and political boundaries. Before the devolution, Nyamira had three constituencies, five districts, 14 divisions, 38 locations and 90 sub-locations. With the advent of the devolution in 2013 due to the new constitution, Nyamira forms part of the 47 County Governments in Kenya with one extra Constituency created and 20 electoral wards.

The County is predominantly occupied by the Gusii Community. However, the northern and eastern parts of the County have got some different ethnic significance being Luos and Kipsigis respectively. These two ethnic groups are considered the minority in the county with the Luos further considered as the marginalized group. Unlike the Luo Community who permanently stays in the county, most of the Kipsigis are on transist basically because of the trade exchange. The Gusii community in the County is further classified into two major sub-clans being the Abagirango and the Abagetutu with several micro clans that trickle down into the extended and nuclear families.

Nyamira County is a member of the Lake Region Economic Bloc. The Lake Region Economic Bloc is made up of Bungoma, Busia, Homa Bay, Kakamega, Kisii, Kisumu, Migori, Nyamira, Siaya, Vihiga, Nandi, Bomet, Trans Nzoia and Kericho Counties. The common understanding of the Bloc is for strategic connections between Counties with shared interests seated in a desire for

mutual benefit can be an effective and intelligent means of increasing the possibility of creating notable development impact across several counties. The existence of other regional development urgencies like the Lake Basin Development Authority and Lake Victoria South Water Works Development Agency has spared development in their line interventional areas in the County. The Agencies cover Bomet, Homa-Bay, Kericho, Kisii, Migori, Nyamira, Kisumu and Siaya Counties.

The County has inter county relations; along the Homabay County (Rachuonyo) border there is ethnic intermarriages, this is evident in Miruka and Nyamusi areas that has promoted peace coexistence. Miruka, Chebilat and Keroka markets along the borders of Homabay, Bomet and Kisii counties respectively have promoted exchange of goods and services for the people living along these borders. The existence of the tea zones in Kericho and Nyamira counties has promoted employment among the tea factories and the dwellings.

### **1.1.2 County Position and size**

Nyamira County is one of the forty seven Counties in Kenya. The County borders Homabay County to the North, Kisii County to the West, Bomet County to the East, Kericho County to the North East and slightly Narok County to the South. The County covers an area of 897.3 km<sup>2</sup>. It lies between latitude 00 30' and 00 45' south and between longitude 34 45' and 35 00' east. The County neither borders any international Country nor does it have any major water bodies.

### **1.1.3 Physical and Natural Conditions**

Nyamira County is predominantly hilly known as the “*Gusii highlands*”. The Kiabonyoru, Nyabisimba, Nkoora, Kemasare hills and the Manga ridge are the most predominant features in the county. The two topographic zones in the county lie between 1,250 m and 2,100 m above the sea level. The low zones comprise of swampy, wetlands and valley bottoms while the upper zones are dominated by the hills. The high altitude has enabled the growth of tea which is the major cash crop and income earner in the county.

The permanent rivers and streams found in the County include Sondu, Eaka, Kijauri, Kemera, Charachani, Gucha (Kuja), Bisembe, Mogonga, Chirichiro, Ramacha and Egesagane. All these rivers and several streams found in the County drain their water into Lake Victoria. River Eaka is important to Nyamira residents as this is where the intake of Nyamira water supply is located.

On the other hand river Sondu has a lot of potential for hydro-electricity power generation which if harnessed can greatly contribute towards the county's economic development and poverty reduction efforts. The levels of these rivers have been declining over years due to environmental degradation especially improper farming methods and planting of blue gum trees in the catchments areas and river banks.

The major types of soil found in the County are red volcanic (Nitosols) which are deep, fertile and well-drained accounting for 85 per cent while the remaining 15 per cent are those found in the valley bottoms and swampy areas suitable for brick making. Though the red volcanic soils are good for farming, they make construction and road maintenance expensive.

The County is divided into two major agro-ecological zones. The highland (LH1 and LH2) covers 82 per cent of the County while the upper midland zone (UM1, UM2 and UM3) covers the remaining 18 per cent. Although the vegetation in the County is evergreen, there is no gazetted forest. The tree cover in the county is mainly agro-forestry. Efforts are however, being made to gazette and conserve the hilltops. These have been encroached due to high population pressure. There is need to expand the forest cover throughout the county which will be a source of timber and wood fuel that will earn the community income resulting to poverty reduction. Emphasis is being made on gravellier that benefits the farmers more than the blue gums.

## **1.2 RATIONALE FOR THE PREPARATION OF THE ANNUAL DEVELOPMENT PLAN 2025/2026:**

### **1.2.1 Overview and County Strategic Objectives**

The County Annual Development Plan sets out the County's priority programmes for implementation in the Financial Year 2025/2026 under the Medium Term Expenditure Framework. In reference to 2023 County Fiscal Strategy Paper, the Plan has been relying on the following broad strategic priority areas:

- Infrastructure Development: These include interventions in roads, energy (street lighting) and ICT development.
- Agriculture, Rural and Urban development: these include interventions like livestock, fisheries and agriculture, spatial planning and housing development.
- Water and Environment: these include interventions like spring protection, drilling of boreholes, wetlands conservation and promotion of bamboo tree planting.

- Health: Priorities in this sector include funding healthcare infrastructure, communicable and non-communicable diseases and drugs.
- Social Sector: priority areas include education (ECDE & Youth polytechnics), Culture, Sports, Youth, Cooperatives, Trade development and opportunities for vulnerable members of our society.
- Enhancing Governance, Transparency and Accountability in the Delivery of Public Service.

The aim of the proposed priority programmes contained in the 2025/2026 Annual Development Plan is to meet these key county strategic objectives. This will stimulate economic growth and hence contribute to sustainable socio economic development. These programmes are also consistent with the aspirations of our key policy documents such as the Fourth Medium Term Plan (2023-2027) of Kenya Vision 2030, Nyamira County Integrated Development Plan (2023-2027) and the respective County Departmental Strategic Plans 2023-2027

### **1.2.2 Legal basis for the preparation of the County Annual Development Plan 2025/2026**

The Annual Development Plan (ADP) is prepared in reference to Section 126 (1) of Public Finance Management Act (PFM) 2012 stipulating that every County Government shall prepare a development plan in accordance with Article 220(2) of the Constitution, that includes;

- Strategic priorities for the medium term that reflect the county government's priorities and plans;
- A description of how the county government is responding to changes in the financial and economic environment;
- Details of the strategic programmes to be delivered
- The services or goods to be provided;
- Measurable indicators of performance where feasible and the budget allocated to the programme;
- Payments to be made on behalf of the county government, including details of any grants, benefits and subsidies that are to be paid;
- A description of significant capital developments;

The County Executive Committee member responsible for planning shall prepare the development plan in accordance with the format prescribed by regulations. The County Executive Committee Member responsible for planning shall, not later than the 1st September in each year, submit the development plan to the County Assembly for its approval, and send a

copy to the Commission on Revenue Allocation and the National Treasury. The County Executive Committee Member responsible for planning shall publish and publicize the annual development plan within seven days after its submission to the county assembly.

### **1.3 PREPARATION PROCESS OF THE ANNUAL DEVELOPMENT PLAN 2025/2026**

The process of developing this County Annual Development Plan took the following steps;

- A. The County Executive committee member for Economic Planning issued a circular, with instructions and timelines to all County Accounting Officers. The Directorate of Planning convened the county government departments/agencies forums and formed the CADP secretariat.
- B. The County Government reviewed the previous Annual Development Plan 2023/2024 and to documented achievements (key outputs and project implementation status), challenges faced during the implementation of the plan and lessons learnt. In preparing the CADPs, county departments took into consideration changes in policy priorities as outlined in CIDP or any new policies;
- C. The County Government undertook stakeholder's engagements to document their views/inputs. The county technical departments carried out public participation forums to identify possible projects for implementation in the financial year 2025/2026. The projects will be prioritised during the Medium Term Expenditure Framework budget-making process;
- D. The CADP secretariat analysed the submissions from technical departments incorporating inputs from citizens and other stakeholders, and compiled a draft CADP. The Draft CADP is thereafter was validated by stakeholders and submitted to the County Executive Committee for approval on 29<sup>th</sup> August 2024. The County Executive Committee member responsible for Finance submitted the approved CADP to the County Assembly for approval on 30<sup>th</sup> August 2024 and
- E. The County Executive Committee member responsible for Finance shall published and publicised the Annual Development Plan within on 2<sup>nd</sup> September 2024 after its submission to the County Assembly.

## **1.4 COUNTY ANNUAL DEVELOPMENT PLAN 2025/2026 LINKAGES WITH OTHER PLANS**

### **1.4.1 Kenya Vision 2030 and its Medium Term Plans**

Kenya's Vision 2030 is an economic blueprint that seeks to create "a globally competitive and prosperous nation with a high quality of life by 2030". The Vision aims to transform the country into a newly industrializing, middle income country providing a high quality of life to all its citizens in a clean and secure environment. The Vision is anchored on three key pillars: economic; social; and political. Kenya Vision 2030 is implemented through successive five years Medium Term Plans (MTP) at the national level while the County Integrated Development Plans implement it at the county level. The fourth MTP covers the period 2023-2027 and inspire third generation of County Integrated Development Plan 2023–2027. County Annual Development Plan is one year extract from The CIDP for County governments and is thus envisaged to support implementation of Vision 2030 projects that may be domiciled in or cut across the counties and further identify specific projects and programmes for implementation towards achievement of the National vision.

### **1.4.2 Linkage with Sectoral Plans**

Part XI of the County Government Act 2012 has provided the broad framework and procedure for county planning. To this end section 109 of the County Government Act 2012 requires that a County department "shall develop a ten-year county Sectoral plan as component parts of the county integrated development plan". Additionally, the Sectoral plans shall contain programmes, costs and yardsticks for performance measures and management. County Annual Development Plan implements the CIDP for one year which contains programmes from the sector plans.

### **1.4.3 The National Spatial Plan (NSP) Framework**

The National Spatial Plan (NSP) defines the general trend and direction of spatial development for the country. It is a Kenya Vision 2030 flagship project aiming at distributing the population and activities on the national space to sustainable socio-economic development. The NSP further provides a spatial structure that defines how the national space is going to be utilized for the realization of optimal and sustainable use of our land. The Plan provides a spatial framework upon which the various Sectoral plans and policies will be anchored and is a basis for preparation of all other lower level plans. The NSP envisions spatial development of the country in a manner

that promotes the competitiveness, prosperity and a high quality of life for the citizens in line with the aspirations of Kenya Vision 2030.

It is therefore, espoused that for Nyamira County to realize a balanced development and high quality of life for all county citizens, the CIDP will take key considerations on provisions in the various pieces of legislation as well strategies. The County Spatial plan will be driven by a policy framework that offers a platform for implementation of county projects with key object of promoting competitiveness, economic efficiency, optimizing the use of land and natural resources, promoting balanced regional development and conserving the environment. By the time of the preparation of this CIDP, the County Government was in the process of developing a County Spatial Map. Most of the planning decisions were made on guidance from the physical plans which were ready. In this CIDP, the contributions of the county partial plan would be incorporated during its review.

#### **1.4.4 The Integrated Green Economy Implementation Programme (IGEIP)**

The IGEISP lays emphasis on mitigating the socio-economic challenges facing the achievement of the Kenya vision 2030. These are; food insecurity, poverty, inequalities, unemployment, poor infrastructure, environmental degradation, climate change and variability. The plan seeks to guide Kenya's transformational path way in five key areas namely; sustainable infrastructure development, building resilience, sustainable natural resources management, resource efficiency, social inclusion and sustainable livelihood. Implementation of this plan is guided by; Equity and social inclusion, resource efficiency, Polluter-Pays-Principle, precautionary principle, good governance and public participation. This CADP 2025/2026 has borrowed greatly from these principles as it has integrated them and measures put in place to provide adequate resources towards its achievement.

#### **1.4.5 African Agenda 2063**

The African Union developed a road map for “an integrated, prosperous and peaceful Africa, driven by its own citizens and representing a dynamic force in the international arena” .This agenda has become the overarching guide for the future of the African continent. The shared common vision of African states is as follows;

- A prosperous Africa based on inclusive growth and sustainable development;
- An integrated continent, politically united, based on the ideals of Pan Africanism and the vision of Africa's renaissance;

- An Africa of good governance, respect for human rights, justice and the rule of law;
- A peaceful and secure Africa;
- An Africa with a strong cultural identity, common heritage, values and ethics;
- An Africa whose development is people-driven, relying on the potential of African people, especially its women and youth, and caring for children; and
- Africa as a strong, united, resilient and influential global player and partner.

The Agenda lays emphasis on a strong desire to see a continent where women and the youth have guarantees of fundamental freedoms to contribute and benefit from a different, better and dynamic Africa by 2063, and where women and youth assume leading roles in growth and transformation of African societies. This will steer the continent to prosperity, well-being, unity and integration, freedom and security. These aspirations will inform strategy formulation and programs developed in both the CIDP and CADP.

#### **1.4.6 County Annual Development Plan linkage with the Sustainable Development Goals**

The Sustainable Development Goals are a new set of goals, targets and indicators that UN member states committed to guide their developmental and political agenda over the next 15 years through to 2030. They are a universal call to action to end poverty, protect the planet and ensure that all people enjoy peace and prosperity (UNDP). The sustainable development envisaged under the SDG platform targets three major dimensions namely economic, social and environment. The SDGs replace and build on the gains of the MDGs (Millennium Development Goals) while including new areas like climate change, economic inequality, innovation, sustainable consumption, peace and justice among other emerging priorities. CADP will then address these advocacies through its programmes.

## **CHAPTER TWO**

### **REVIEW OF THE COUNTY ANNUAL DEVELOPMENT PLAN 2023/2024**

#### **2.0 INTRODUCTION**

This chapter explains the analysis of the revenue performance in 2023/2024, analysis of the expenditure performance in 2023/2024 and the Programme achievements versus the planned targets in the period under review as well as analysis of (current ADP)2024/2025 CADP Allocation against Approved Budget 2024/2025.

#### **2.1 Analysis of (current ADP) 2024/2025 CADP Allocation against Approved Budget 2024/2025**

This chapter seeks to establish the linkage between the running CADP and the county budget. It further links the CADP 2024/25 to the CADP 2025/26. The section provides a specific assessment of the budget allocation between the planned programmes and projects in the CADP 2024/25 and the allocations in the approved budget for the same year.

## **2.2. FINANCIAL PERFORMANCE REVIEW FOR 2023/2024**

### **2.2.1 Revenue performance analysis 2023/2024**

The total target revenue for the financial year 2023/2024 was Ksh 7,282,175,903, while the actual revenue achieved was Ksh 6,136,522,468. This total includes unspent balances carried forward from the 2022/2023 financial year.

- Own Source Revenue: Achieved 79.8% of the budgeted Ksh 457,000,000, totaling Ksh 364,469,476. This resulted in a shortfall of Ksh 92,530,524.
- FIF (Health Facility Improvement Fund): Achieved 96% of the budgeted Ksh 230,000,000, totaling Ksh 220,814,736. This resulted in a shortfall of Ksh 9,185,264.

The performance of grants shows a mixed picture: Strong Performers: Projects like the World Bank for National and Rural Inclusive Growth Project and NAVCDP have demonstrated effective utilization and management of funds.

- Concern Areas: Several programs, particularly DANIDA, KUSP UDG, KUSP UIG, and Climate Change, face significant challenges, such as complete halts in funding or severe shortfalls. These issues need urgent attention to ensure continuity and success of projects.

To improve overall performance, it's essential to:

- Engage with Funding Agencies: Address any issues causing reduced or halted funding.
- Diversify Funding Sources: Explore alternative funding options to mitigate risks.
- Enhance Reporting and Transparency: Improve communication with stakeholders to provide clarity on fund usage and performance.

The revenue breakdown is as detailed in table 2.2 below;

*Source: Nyamira County Treasury 2024*

**a) Unspent Balances**

The unspent balances included in the 2023/2024 financial year budget were the opening balances of the 2022/2023 financial year. The amount was then realised to a tune of 100%. The opening balances comprised of the conditional grants from the CRF account, The Conditional Grants from the special purpose accounts and the exchequer releases which were then attached to pending bills and obligations appropriated in the Programme Based Budget 2023/24.

**b) Equitable share**

The performance of the expected equitable share was perfectly satisfactory, achieving 92% of the target. However, it is important to note that the exchequer release for the final instalment was received in late July, consistent with the previous year's trend where the last instalment was also delayed until July 2022. This late release of funds in June has been a recurring issue from the National Treasury, which has historically impacted County Government operations and contributed to the accumulation of pending bill

**c) Capital Grants from Development partners**

The performance of the Capital grants was averagely received at 36% adedcrease from 73% the previous year. This was occasioned by the late release of the donar funds which signicantly will be factored in the First Supplementary Budget 2024/2025 as revealed by the Refund statements ending 30<sup>th</sup> June 2024.

**d) Local revenue**

Own source revenue was segregated into two being; own source revenue from the executive collected at Ksh. 364,469,476 against Ksh. 457,000,000 translating to 80%, this resulted in a shortfall of Ksh 92,530, 524. FIF (Health Facility Improvement Fund) achieved 96% of the budgeted Ksh 230,000,000, totaling Ksh 220,814,736. This resulted in a shortfall of Ksh 9,185,264. There is remarkable improvement in 2023/2024 but still remains a challenge due to overcasting, it is therefore important to note that the county need to focus on the realistic forecast for local revenue sources to avoid revenue shortfalls.

#### e) **Revenue Shortfall Challenges and Way Forward**

The major revenue streams in the county are land rates, agricultural produce cess, single business permits, plot rents, and parking fee. Table 4 shows revenue challenges and way forward.

##### **1) Land Rates**

High default rates and weak enforcement mechanism led to low rates collection. The future implementation of the proposed rating bill 2019 will strengthen enforcement on rate collection while review of the valuation roll will widen the ratable properties. A high percentage of county residents who own land and are ratable are defaulters and this poses a risk to revenue collection. To encourage rate defaulters to pay land rates, the county will purpose to waive penalties.

##### **2) Parking Fees**

Lack of designated parking points coupled with weak enforcement made it difficult to enforce and collect parking fees. However, revenue is going to be improved since a parking bay has now been constructed in Nyamira Town and the enforcement personnel employed.

##### **3) Building Permits**

Non-disclosure and adherence of county building regulations, poor enforcement of building standards and regulations have led to low revenue collection from building development approval permits. There exists huge potential in this revenue stream. In order to realize this potential, mechanisms have now been put in place to ensure that revenue in this area is maximized.

##### **4) Single Business Permit (SBP)**

During the period 2023/24, collection from this stream was below target due to the following;

- Non- implementation of devolved functions collection laws e.g. Liquor
- Lack of updated business register

**Table 2.3: Revenue challenges and way forward**

No.	Challenges	Proposed Way Forward
1.	Political interference in the operations of markets	Management is continually cooperating with the business community the various departments concerned
2	Resistance from Boda Boda operators to pay taxes claiming that their demands have not been accomplished. This has persisted for the past 8 years.	Management has held consultative meetings with the BodaBoda leadership at the county and sub county levels. Currently the Boda Boda operators have started paying for the motorbike stickers. There will be enforcement to net on the defaulters.
3	Outdated county Valuation roll as the one in use covers only a few parcels of land. Further, it is an old (obsolete) roll inherited from former councils.	There is Budget allocation for county valuation roll in the current financial year, and the county property and rating Act is in draft form, it is being processed and will be submitted to the county assembly for approval.
4.	Inadequate education and awareness to our tax payers on the general importance of endeavoring to, not only paying taxes/levies but also making the same promptly.	We have decentralized revenue collection to departments with more emphasis on 6 key departments namely; Trade, Health, Lands & physical planning, Public service management, gender and agriculture. There has been ongoing sensitization through local radio stations, notices to the general public on need to pay taxes, cashless [payment modes and payment deadlines.
5.	Internet connectivity challenges	Management has engaged Safaricom Limited to provide internet services in the county which is more reliable. There has been continuous training of our revenue collectors through the department of ICT to ensure improved efficiency
7	Enforcement Challenges	Management is in consultation with the department of Legal services to work on the possibility of establishing county courts to improve on compliance since defaulters will be dealt with effectively without delay. Mapping of all structured revenue sources is currently ongoing. Continuous rotation of officers in revenue collection to ensure that officers do not overstay in same collection points.
8	Inadequate identification of revenue collectors	Management has changed identification for revenue collectors from the previous yellow overcoats to current red overcoats. All revenue collectors have identification Tags and are required to be properly identified while on duty.
9	Cash handling	Management is embracing the cashless revenue collection modes (MpesaPaybill,(004646) ,Mpesa Xpress, USSD 8856#, &Direct Bank Deposits This will minimize the risk associated with handling cash

### **2.2.2 Expenditure Performance 2023/2024**

The target expenditure for 2023/2024 financial year was Ksh.7,282,175,903 comprising of Ksh. 5,126,961,542 (70%) and Ksh. 2,155,214,361 (30%) of recurrent and development expenditures respectively. The actual total expenditure during the same period was Ksh. 6,560,935,738 comprising of Ksh. 1,686,509,530 and Ksh. 4,874,426,208 as development and recurrent expenditures respectively. ## 2.6 CONTRIBUTION OF ACHIEVEMENTS TO THE NATIONAL, REGIONAL AND INTERNATIONAL ASPIRATIONS/CONCERNS FOR FY 2023/2024

**Table 2.7 Linkages with National Development Agenda, Regional and International Development Frameworks**

<b>National/ Regional/ International Obligations</b>	<b>Aspirations/ Goals</b>	<b>County Government Contributions/ Interventions in the last CADP</b>
Bottom-up Economic Transformation Approach (BETA)	Agriculture transformation	Supported farmers with inputs
SDGs	Goal4: Quality Education	Recruited ECDE teachers

**2.7 SECTOR CHALLENGES**

Implementation of the previous CIDP 2018-2022 was constrained by various challenges across the sectors that include the following;

**a) Funding of programmes and projects:**

- Inadequate allocation of funds to effectively implement planned programmes and projects in the CIDP
- Late disbursement of funds by the national treasury leading to delayed implementation of projects and planned activities in various departments
- Reduced donor funding constraining the available resources to implement key programmes and projects i.e reduced funding of HIV interventions
- Mid-stream re-allocation of budgets interferes with implementation of interrelated programs thus compromising intended outcomes

**b) Human resource capacities**

- Limited number of critical staff in departments especially Health personnel , Engineers , Agriculture extension staff , ECDE teachers and instructors and to implement sector mandate
- Natural attrition and high staff turnover without succession planning affecting service delivery
- Knowledge & skills gap , ethos & mindset towards work affecting delivery of services

**c) Covid 19 pandemic**

- Affected extension activities, disease control programs and restricted movement distorting demand and supply of products, delayed the implementation of planned activities across all the sectors.

**d) Procurement of goods and services**

- Prohibitive legislations , regulations and prolonged budget approval processes occasioning delays in procurement of works and services
- e) **Inadequate space/land and supportive infrastructure**
- Limited space/land to support development of public infrastructure
  - Exorbitant cost of acquisition of land
  - Encroachment to road reserves hampering expansion and rehabilitation of roads
- f) **Vandalism and theft of critical infrastructure**
- Destruction of water pipes along the road due to road works and theft and illegal water connections
  - Destruction and theft of critical public installation and infrastructure
- g) **Physiographic challenges and climatic change**
- Rugged terrain increasing the cost of implementing projects i.e roads and building works
  - Changing climate occasioning new pests and diseases, extreme rains affecting road works and agriculture production
- h) **Increasing population**
- Increasing urban population Straining on the limited amenities (water,sererage,
- i) **Limited policies, legal and institutional frameworks**
- Absence of supportive policies
  - Limited consultations coordination and linkages between levels of government and MDAs
  - Absence of M&E framework and routine project inspection
- j) **Litigations and conflicts of interest**
- Many court cases and conflicts stalling project implementation
  - Bi partisan interest in projects implementation compromising quality and standards in project implementation

## 2.8 SECTOR EMERGING ISSUES

- a. **Climate change** and its effects has affected the agriculture sector in terms of hampered production , heavy rains has had impact of road infrastructure development and also brought along novel tropical diseases .
- b. **The COVID -19 pandemic** affected extension activities, disease control programs and restricted movement distorting demand and supply of products, delayed the implementation of planned activities
- c. **Changing technology:** technology is changing very fast rendering other investments obsolete.
- A. I technology has revolutionized processing of data and information in all disciplines. Risks

associated with technology are increasing including layoffs and cyber security issues.

- d. International conflicts and wars;** Russian –Ukrain conflicts as well as the Israel palestitian wars has brought near recession of the world economy. The conflict has had ramifications on global demand and supply. This has affected availability of critical resources and high costs of goods and services
- e. Market volatility** and changes in prices of essential commodities i.e. Fuel and electricity impacting on production and consumption thus revenue collection. Lifting of trade barriers exposing local producers to unfavorable competition especially Fisheries subsector ; unregulated inter county movement of animals complicating management of disease outbreaks;
- f. Emerging Health conditions:** Increase in NCDs that has increased health burden to households and reduced investments in productive work , Rampant Mental illnesses coupled with increased drugs alcohol and substance abuse has immensely reduced labor productivity
- g. Disasters and Emergency response:** The ability to fall back to normality after disasters has been greatly hampered by increased population and Urbanization. A disaster slows down socio-economic growth to the affected community and individuals. In the event of disasters resources are reallocated to mitigate the effects thereby denying resources to other priority projects.

## 2.9 SECTOR LESSONS LEARNT

- a.** To improve service delivery and improve on revenue collection for the county government , automation of services is critical in the wake of increasing demand for quality and timely services
- b.** For sustainability of programmes and projects is guaranteed with involvement of the community and stakeholders in the entire project cycle
- c.** Inter sectoral and inter governmental coordination consultation and cooperation is essential in harmonization of activities towards achieving a common goal. This creates efficiency in resource allocation and accelerates achievement of intended programme outcomes
- d.** Need to improve project implementation through establishment of Project management teams to oversee project execution and management
- e.** To curb on low rate of project implementation the respective sector ought to undertake feasibility studies , involve relevant authorities ie NEMA in ex- ante evaluation of programmes and projects
- f.** Monitoring, valuation and learning to be strengthened through policy guidelines and capacity building of departments M&EO to undertake the function effectively.
- g.** Strengthening institutions capacity to effectively identify ,evaluate ,prioritize, plan and execute projects in critical in achieving the CIPD objectives
- h.** Need to plan for optimal staffing considering succession management, capacity enhancement plans and career progression to improve on services delivered by departments.
- i.** Upscale the adoption of new technology, leverage on research findings and available natural resources in agricultural production, increasing opportunities for trade and industrialization as well automation in provision of critical services in the social sectors.

## CHAPTER THREE

### SECTORAL STRATEGIC PRIORITIES, PROGRAMMES AND PROJECTS FOR FY 2025/2026

#### 3.0 INTRODUCTION

This chapter gives a detailed analysis of the strategic priorities, programmes and projects for the 2025/2026 Financial Year.

#### 3.1 SECTOR OVERVIEW

The county government has the following sectors being; Agriculture, Rural and Urban Development; General Economic, Commercial and Labor affairs; Public Administration & Internal Relations; Social Protection, Culture and Recreation; Health Sector; Education Sector; Energy, Infrastructure and ICT; Environmental protection, water and natural resources and Justice Law and order.

##### 3.1.1 Agriculture, Rural and Urban Development

**Sector composition:** The Sector comprises of the following; Land use management, Urban and Housing Development and management, Physical planning, surveying and management support services, Crop Production, Agribusiness & Land Management Services, Fisheries development, Livestock promotion and development services, Animal health and meat management support services, Co-operative development and management support services, Nyamira Municipality board and Iriigation services

##### **Sector Vision, Mission and Goal**

**Vision:** A food Secure and wealthy county anchored by an innovative, commercially oriented and competitive agriculture, road and rural urban development sector.

**Mission:** To improve the livelihood of the County residents and ensure food security through creation of an enabling envcironment and ensuring sustainable natural resource management.

**Sector Goal(s):** the sector works towards the achievement of the following goals;

- Competitive agriculture through creation of an enabling environment and provision of support services.
- Sustainable livestock anf fisheries development
- Vibrant and self sustaining co-operative movement
- Sustainable administration of land management

## **CHAPTER FOUR**

### **IMPLEMENTATION, MONITORING AND EVALUATION FRAMEWORKS**

#### **4.0 INTRODUCTION**

This chapter provides a detailed explanation on the implementation framework, resources details, Monitoring and evaluation framework and the monitoring and evaluation matrix.

#### **4.1 IMPLEMENTATION FRAME WORK**

##### **4.1.1 Institutional Framework**

Nyamira County Government mandate is vested in The Constitution of Kenya 2010, County Governments Act 2012 and the Urban Areas and Cities Act 2011 where the functions of the devolved units are clearly stated. In order to achieve the county strategic goals, the county would seek to strengthen the existing organizational structure to make sure that service delivery is achieved. The following organs in the County will play a great roll in this process: The County Assembly; will continue to offer the legislative authority of a county, make any laws that are necessary for the effective performance of the functions and exercise of the power, offer oversight over the County Executive and other organs in the County and approves plans and policies for the management and utilization of the County resources as well as the development and management of its infrastructure and institutions: The County Public Service Board; will establish and abolish offices within the County, appoint persons to the offices of the County Public Service, facilitate the development of the human resource planning and budgeting for personnel and make recommendations to the Salaries and Remuneration Commission: The County Executive Committee; will implement county legislation, implement national legislation relevant to the county, manages the ten (10) sectors of the County Administration and performs any other functions conferred on it by the Constitution or National Legislation. The CEC committee may prepare proposed legislation for consideration by the County Assembly: The County Budget and Economic Forum (CBEF); will provide means for consultation by the County Government on preparation of county plans, the County Fiscal Strategy Paper (CFSP), and the Budget Review and Outlook Paper (BROP). The CBEF creates a platform which ensures all county planning and budgeting processes are all-inclusive a consultative, through public participation, governance and civic education: The County Treasury; will be responsible for

monitoring, evaluating, and overseeing the management of public finances and economic affairs of the County government.

## 4.2.3 Estimated Resource Gap

This area estimates the required resources against the estimated revenues and thus estimates the gap.

**Table 4.4: Resource Gap**

Requirement (Ksh. In Millions)	Estimated Revenue (Ksh. In Millions)	Variance (Ksh in Millions)
9,340.595	9,072.83	267.765

#### **4.2.2: Financial and Economic Environment**

This section should discuss how the county is responding to financial and economic constraints such as availing funds for high impact capital projects, effects of drought etc. Also, indicate a description of legal provisions which may need to be reviewed or developed to spur county economy.

In the wake of devolution, public participation in Planning and budgeting, Prioritization of development programs and projects, and public empowerment due to civic education and access to information, there are high expectations from the members of the public and other stakeholders in terms of development and service delivery. This increased expectations make a call for tremendous efforts towards resource mobilisation for satisfaction of such felt and emerging needs. The county Governments nyamira included have been asking for additional allocations from the national government in terms of equitable share year in year out. In this financial year, the Finance bill 2024 has created heated debates and demonstrations, resulting to back and forth amendments which seemingly may see the county allocations remaining same or undergoing some mutilations. In this case the County Government is pursuing other revenue sources so as to stop relying solely on the equitable share from the National government, making the same call of having the County allocations increased due to demand of service for the devolved functions.

Own Source Revenue enhancement within the County has been prioritised as a major drive in the quest for development funding. The County has undertaken various measures to upscale Locally Generated revenues including automation of revenue collection, monitoring and reporting, continuous improvement of market infrastructure, enactment of finance bills and acts in every year, expansion of revenue base by introduction of new revenue streams, establishment of Nyamira County Revenue Board and deployment of competent staff to work with strongly supported market committees. As a result, the county continues to strengthen revenue collection to bridge resource gaps realised in the past, currently and in future.

The County government has sought partnerships with the National Government and Donors to assist in financing development projects and programs. Such partnerships have been in form of

Subsidies, Co-funding, conditional and non-conditional grants. Such partnerships have supported sectors such as Roads, Housing, Municipality, agriculture, Livestock, Health Services, Gender, Human resource, Finance, Education among others. The Government will continue to seek for more partners to help in driving the development agenda forward.

To spur the County economy, the following is advised;

- Strengthen the County Revenue Board operations
- Full implementation of the Finance Acts
- Commission on Revenue Allocation to consider increased equitable shares to county Governments
- The Senate, County Assembly and members of the public to play their role of oversight on prudence management of public resources
- Strengthen public participation for proper prioritisation of development initiatives
- Adherence to County planning and Budgeting frameworks

#### **4.2.3 Resource Mobilization for implementation of the Plan**

In the implementation of the ADP 2025-2026, resources to fund the various planned projects would be required. As a result, the county expects funding from the following revenue streams over the period.

- Equitable share from the national government
- Conditional grants from the national government transfers
- Conditional grants from other development partners/agencies
- Own Source Revenue (Locally generated Revenue)

Due to the scarcity of resources, any anticipated resource gap/s would be addressed through;

- a) **Revenue automation:** This is an on-going process nearing its completion. It is an intervention expected to seal the revenue leakages, enlarged revenue base and also enable the county to work in a fully integrated revenue system.

b) **Public Private Partnership:** The County government would embrace partnerships with private entities to invest in various forms of development initiatives through incentives, provision of land, conducive environment. Such sectors include environment, water, waste management, energy, health among others.

c) **County revenue administration and legislations** – The county government would pursue preparation and enforcement of relevant laws meant to improve on revenue generation.

### 4.3 Risk Management

**Table 4.5: Risk Management**

<b>Risk Category</b>	<b>Risk</b>	<b>Risk implication</b>	<b>Risk Level (Low, Medium, High)</b>	<b>Mitigation Measures</b>
Financial	Inadequate financial resources Untimely exchequer disbursements	Stalled projects and pending bills	Medium	Resource mobilisation strategies
Technological	Cyber insecurity	Breach of valuable information	Medium	Investment in cyber risk management
Natural Disasters	Floods, Landslides and diseases	Loss of livestock, properties, life and reduced crop yields	Medium	Climate smart agriculture and other practices
Organisational	Inadequate Human Resource capacity	Inefficiency in service delivery	Medium	Timely recruitment and capacity building
Economic	Corruption	No value for money, discredit to the Government	Medium	Transparency and accountability in operations
Political	Negative politicking of government efforts	Destabilised Government	High	Seamless access to information and public knowledge management

## **4.4 MONITORING AND EVALUATION FRAMEWORK**

### **4.4.1 Monitoring Mechanism**

Monitoring of the entire process from planning, designing and implementation is very important. This keeps the planned activities in check, reduces duplication, wastages, allows for remedial measures to be taken and ensures the projects/programmes delivery on time. The County will constitute the Monitoring and evaluation frame which will take three executing entities being; County Monitoring and Evaluation Committee (CMEC), Technical Monitoring and Evaluation Unit (MEU), Departmental Monitoring and Evaluation Committee (DMEC), Sub-County Monitoring and Evaluation Committee (SCMEC) and the Ward Monitoring and Evaluation Committee (WMEC).

The CMEC will have an overall role in supervision of the plan implementation and will also organize surveys on the quality of service delivery. The information from such surveys is for dissemination to all stakeholders. It is important to note that a Bi-Annual Review Meetings (BARM) will be conducted with the stakeholders to keep the plans' activities and outputs on track during implementation, and enable the stakeholders to identify and take necessary actions to address emerging challenges. The BARM will be undertaken through the Stakeholder Review Fora (SRF).

### **4.4.2 Evaluation**

Evaluation entails checking the impacts projects have made to the community. The Plan will be subjected to two internal Annual Evaluations, namely the Mid-Term Evaluation and the End term Evaluation. Mid Term Evaluation and Review (MTER) will assess the extent to which the plan is meeting its implementation objectives and timelines.

### **4.4.3 Data Collection, Analysis and Reporting**

Reporting is important in this process because it provides feedback to establish the challenges, successes and weaknesses in the implementation of various projects and programmes and whether the set objectives can be been achieved or are on course. Sub-County Monthly Monitoring and Evaluation Reports (SCMMER) will be prepared together with Ward Monitoring and Evaluation Reports (WaMER) and submitted to the County Planning Unit (CPU) in order

prepare progress reports. Furthermore, County Quarterly Monitoring and Evaluation Report (CQMER) and a County Half Year Monitoring and Evaluation Report will also be prepared to capture progress during a quarter period of the year and half period of the year respectively.

Finally, a County Annual Monitoring and Evaluation Report (CAMER) are to be produced and submitted to the County Planning Unit for preparation of Annual Progress Report. These reports will outline in summary from projected targets achievements, facilitating factors and challenges faced. These reports prepared by CPU are for submission to the Governor's office for information, use and dissemination to the stakeholders. Issues requiring policy interventions will be submitted to the County Executive Committee for action. Information sharing and reporting is key in reviewing this plan. It will be posted on the official county website for the wider circulation and consumption. It will also provide a mechanism for monitoring and evaluation. Various stakeholders can visit the county website for detailed information. Furthermore, there will be a quarterly stakeholders meeting to share reports at all levels of devolved county government structures and address emerging challenge.
